

ARTIFICIAL INTELLIGENCE AND AI ETHICS

Leadership for government, the public and private sectors to successfully liberate a winning partnership with Artificial Intelligence

MATTHEW JAMES BAILEY

Welcome to inventing your future!

I am an internationally recognised pioneer and authority in the fields of Innovation, Artificial Intelligence, Smart Cities and The Internet of Things. These phenomena have benefited society with global impact and reach. My classification by the US Government is a *Person of Extraordinary Ability*. Find out more in the [team section](#) at [aiethics.world](#) or at this [personal blog](#).

Nations and organisations are starting to navigate their future with Artificial Intelligence and the field of AI Ethics. To successfully transition into a trustworthy and ethical AI-Centric future, stakeholders require expert assistance. This is where my unique world view combined with pragmatic guidance and expertise comes in. To guide the next evolutionary step for society, I recently published a comprehensive guide on how we can mindfully build a flourishing future with Artificial Intelligence - *Inventing World 3.0*.

It has been a privilege to advise G7 governments, assist global technology companies and guide regions and cities in their innovation and digital transformation. Artificial Intelligence is destined to transform every aspect of society, every market and economy into a new world experience.

It would be a pleasure to serve your organisation and assist in liberating a winning future with Artificial Intelligence and AI Ethics. Based on *Inventing World 3.0*, [AIEthics.World](#) was launched to guide public and private sector organisations to navigate a successful partnership with Artificial Intelligence.

Together, we can create a remarkable future!

with Artificial Intelligence and AI Ethics*

EXTRAORDINARY ADVISOR

Global expertise in Artificial Intelligence, AI Ethics and transformation. Advice and consulting is perfectly curated for a nation, region, business or organisation.

Evolutionary Ethics for Artificial Intelligence™ can be used as part of your winning strategy and partnership with Artificial Intelligence. Their unique agility is future proofed. This equips nations and organisations to self determine their future and mindfully advance into an AI-Centric society. They enable curated configuration, adaptation, inclusion and evolution of any in-house or specifically designed AI strategy.

REGULATION AND STANDARDS

The European Union has recently proposed world leading regulation of Artificial Intelligence and has started to consider early stage approaches to AI Ethics and Trustworthy AI certification.

I expertly guide your nation or organisation to comply to the EU standards. We can even develop alternate regulation and standards that work for you best! Evolutionary Ethics are world leading innovation and certification frameworks that assist any nation or organisation with a unique agility to be liberated into an ethical AI-Centric future.

SOCIETY AND ENVIRONMENT

Society: Artificial Intelligence radically changes citizen and consumer experiences. Cities have a unique opportunity to optimise services and experiences. Expert guidance for business, cities and nations to leap into a mindful AI-Centric future.

Environment: Our world is dedicated to restore balance with its environment. Environmental focused AI fast tracks a sustainable-centric future for humanity. Expert guidance for business or government to achieve a flourishing future - Green Nation, Green City or Green Organisation.

WORKSHOPS AND TALKS

As a pioneer of our future, I frequently give talks at events around the world about an AI-Centric future.

Regularly featured on the radio, YouTube channels, websites and podcasts. Its a delight to teach workshops on AI and AI Ethics. Let us get your organisation up to speed with AI and start innovating your future!

AI AND AI ETHICS ACADEMY

AIEthics.World understands it takes time to mindfully innovate your future with Artificial Intelligence.

Our academy provides curated consulting, incubation services and workshops to equip your organisation to formulate a winning partnership with Artificial Intelligence and AI Ethics. [Check out the Academy](#)

AI /AI ETHIC BUSINESS PRACTICE

Many organisations do not have the skilled workforce, AI-ready culture and strategies in place for AI and Ethics.

Together we can build an in-house AI/ AI Ethics business practice. Or you can get going quickly and outsource to AIEthics.world. Let us position you at the forefront of the AI phenomenon.
